

## REMARKS

Claims 2 and 5-9 were allowed on 05 December 2007. The Office of Patent Publication subsequently issued a Notice to Correct Application Papers, in which it objected to the drawings because of the character of the lines, numbers, and letters. Applicants submit herewith a replacement sheet that corrects theses informalities. No new matter has been added. Applicants believe the application is now in condition for issue.

Date: 28 November 2007

Respectfully submitted,

/james r. williams/
